

## Hand-y Craft Firework Center Piece

Summertime is a fun time to celebrate with family and friends. Help your kids create their very own centerpiece. Change the color palette to suit any occasion!

### Materials Needed:

- 1 empty toilet paper roll
- 1 empty paper towel roll
- 1-2 sheets red construction paper (depending on size of child's hand)
- 1-2 sheets blue construction paper (depending on size of child's hand)
- 1-2 sheets white construction paper (depending on size of child's hand)
- 1 sheet red tissue paper
- 1 sheet blue tissue paper
- 1 sheet white tissue paper
- 12-16 inches ribbon
- Ruler
- Glue
- Scissors
- Pencil
- Star Stickers

### Time to Create!

**Step 1:** Cut the paper towel roll into two pieces 1/3 of the way down. You should have one piece that is 1/3 and one that is 2/3 of the original size, plus the empty toilet paper roll.

**Step 2:** Trace one right hand and one left hand onto each of the colors of construction paper and cut out.

**Step 3:** Using the ruler, measure the height of one of the rolls.

**Step 4:** Take a piece of construction paper and mark the measurements for a rectangle with a width of 6-inches and a height based on the measurement of the height of the first roll (See Step 3). Cut out the rectangle.

**Step 5:** Repeat step 4 with the other two rolls and sheets of construction paper.

**Step 6:** Glue one set of hands to the top (6-inch side) of each of the rectangles.

**Step 7:** Glue each of the assembled rectangles onto the roll of the corresponding height (with the hands on the inside.)

**Step 8:** Using the pencil roll the finger tips outward.

**Step 9:** Place one sheet of tissue paper in the center of each roll.

**Step 10:** Tie all three rolls together with the ribbon.

**Step 11:** Place stickers on the outside of each roll.
