# Signing TIME!

## The Benefits of Sign Language

"Infants who augmented their fledgling vocal vocabularies with symbolic gestures outperformed those who did not." —Journal of Nonverbal Behavior 2000, Vol. 24: 81-103.

"Both deaf and hearing children, who are acquiring signs as a first language from their signing parents, develop vocabularies earlier than babies who are learning to speak."  
—Nicole Grove, M.Sc.,  
L.C.S.T.

### Why learn sign language?

In addition to the fun you will have discovering a new and enriching language together, research and experience has shown many benefits of teaching your child to sign:

**Enhances Baby's Memory.** Signing Time DVDs simultaneously reinforce four key learning styles—Auditory, Visual, Kinesthetic, and Spatial—making it easier for your child to learn.

**Reduces Toddlers' Frustration.** Toddlers can learn basic sign language vocabulary quickly and easily from the Signing Time DVDs and books. The "terrible twos" aren't so terrible when your child can communicate what he wants and you can understand him!

**Benefits Children with Special Needs.** Children with special needs may have difficulty with speech. Signing Time has been instrumental in making the miracle of two-way communication possible for many of these children. The Signing Time Series features many children with special needs, thus reinforcing inclusion, positive self-image, and acceptance.

**Boosts Baby's IQ.** Research funded by the National Institute of Health showed that a group of children who had signed as infants scored higher on IQ tests than the group of children who did not learn signs as infants.

**Enhances the Bond Between You and Your Baby.** Being able to communicate with your baby before she develops speech is a remarkable experience. Having a "window" into her little mind strengthens the parent-child bond.

# Signing Time!<sup>®</sup> Classroom Edition

The Signing Time Classroom Edition is an excellent resource for any group setting – preschool, home school, public school, private school, playgroups, after-school clubs, and church groups.

Although the activities are geared for ages 3 – 9 (PreK – 3rd grade), this program is useful for students of all ages.

**Item # 002003**

The Classroom Edition is packaged as a two-inch binder containing eight DVDs, two music CDs, and sixteen units of lesson material.

Each unit is organized around a dozen or more signs and contains fun activities for sign language practice. The DVDs in the Classroom Edition consist of previously released material from our best-loved, award-winning Signing Time programs, edited to deliver the most critical teaching segments by topic. The music CDs contain favorite Signing Time songs and sing-along accompaniment tracks.

**Each of the sixteen units of teaching material includes the following sections:**

**Teacher Tips:** Brief articles with useful helps and hints for using sign language in the classroom.

**Sign Reference Guide:** A handy guide with pictures and descriptions demonstrating how to sign the words in each unit.

**Introducing the Signs:** Fun ideas for introducing the signs in each unit.

**Games and Activities:** Activities with educational merit that provide opportunities for sign language practice. Organized by age/grade range and matched with select national standards according to McREL's Compendium of Content Standards and Benchmarks.

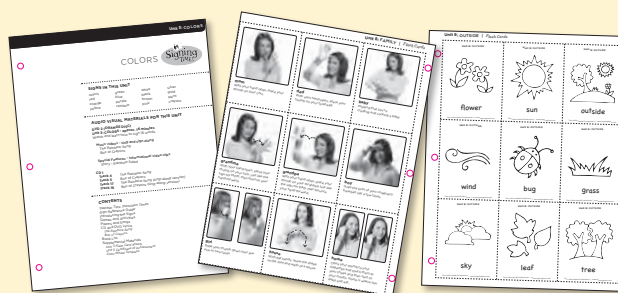

**Poems and Songs:** Practice each unit's signs with simple poems and familiar tunes.

**CD and DVD Lyrics:** Sing and sign along with the Signing Time songs on CD and DVD.

**Book List:** A list of children's books relevant to each unit's topic.

**Flash Card Sheets:** 246 black-and-white sign flash cards! Flash cards can be photocopied so each student can have their own set.

**Supplemental Materials:** Certificates of Achievement and additional templates for select activities are included. All are presented in crisp black-and-white for easy photocopying.

## Practice Time Series

Practice your ABCs and 123s with Signing Time!

**PURCHASE BOTH AND SAVE: SEE PAGE 12**

### Practice Time ABCs Level 1 DVD • #000863

Rachel teaches you the sign for each letter of the ASL manual alphabet, and then reviews all of the letters in the Alphabet Song. Once you've mastered the alphabet, Rachel fingerspells dozens of words and you get to practice "reading" what she's signing. Next, Rachel will ask you to sign the words you see on the screen and then show you the correct answer so you'll know if you got it right! Each practice segment is randomized so that each time you view the DVD it will be different from the last!

### Practice Time 123s Level 1 DVD • #000870

Rachel teaches you how to count to 20 in ASL, and then reviews all of the numbers in the Counting Song. Once you've mastered the numbers 1 to 20, Rachel will sign a number and ask you to tell her which object has the correct number. You will get to practice "reading" the numbers being signed to you and practice your counting skills. Next, Rachel will show you a group of objects and ask you to show her the sign for the number of objects you see on the screen. Then she signs the correct answer so you'll know if you got it right! Each practice segment is randomized so that each time you view the DVD it will be different from the last!

I have just been in awe of the results that I have seen in my classroom using Signing Time. I love the videos and the kids beg me to let them watch the new ones!!! They sign at school all day, at home with their parents, and their siblings. Signing has caught on all over the school. The grades range from 3 yr old programs to 8th grade. I have never been so satisfied before!!!! Keep going Rachel, Alex, and Leah!!!!
